

FINNTALC M15

Functional Extender

GENERAL INFORMATION

FINNTALC M15 is a hydrated magnesium silicate with chemical formula of Mg₃Si₄O₁₀(OH)₂.

Finntalc grades are purified in a cascade of multiple flotation cells. This process results in a tight definition of the talc composition, making this natural product similar to a synthetic chemical. In combination with a precisely controlled particle size distribution, this ensures exact reproducibility in formulations.

APPLICATIONS

- Paints & Coatings: General purpose architectural, industrial coatings with dry film thickness of 50 - 60 μm.
- Plastics: For automotive cabin and under the hood, appliances, pipes, powdering, profiles, packaging, sheets and furniture.
- Polyester Putties

KEY PROPERTIES

 Pure, lamellar, medium particle size talc, stable colour, very hydrophobic, inert and soft.

INCORPORATION

FINNTALC M15 can be used as a functional extender to achieve following results:

Paints & Coatings: Good barrier properties, excellent wet scrub resistance, balanced optical properties, good outdoor durability, good anti-corrosion properties, good sandability and adhesion.

Plastics: Consistent color, low abrasion and longer tool life. Compacted grades are available for low dust generation and easy handling resulting in higher compounding throughput. Compacted grades are available for low dust generation and easy handling resulting in higher compounding throughput.

LEVELS OF USE

Typical use levels for paints and coatings applications are 5 - 30 % depending upon the application and the desired properties.

Typical use levels for talc in plastics depending upon the application. Please contact your local sales representative for advice.

HEALTH AND SAFETY

Before using this product please consult our Safety Data Sheet (SDS) for information on safe handling and storage. The SDS can be found on the company website.

STORAGE RECOMMENDATIONS

Store dry.

SHELF LIFE

FINNTALC M15 has a shelf life of 5 (five) years from the date of manufacture.

QUALITY ASSURANCE

Since 1992 the company is a holder of the ISO 9001 certificate, which guarantees that all operations are conducted according to the stipulated standards.
